

Should you stick or twist? Will you end up bust or taking the house for all it's worth?

## How Does it Work?

Our casino tables come complete with fun money, chips and croupiers.

The croupiers will allocate everybody with some fun money which can then be exchanged for chips. We can organise our casino nights to be run for individual bets or as a team building event. If you are new to gambling this isn't a problem as our croupiers will gladly show you the ropes and have you counting your winnings in no time at all.

## What Happens Next?

Once the tables are open then it's time for the fun to start! Casino nights normally last for approximately 3 hours, which is ample enough time to amass a fortune!

At the end of the 3 hours the money will be collected and the individual / team who wins the most money will receive a bottle of champagne.
