

## Air Rifles - £420 + V.A.T

Use a choice of air weapons to shoot at 'tin cans' and our range of metal animals, spinning targets and knock-downs.

Points are awarded for each hit, with the best shooter achieving the highest score for the team.

## Archery - £420 + V.A.T

Challenging and great fun, test your hand eye coordination in a sport that has existed for hundreds of years.

Use our competition-grade bows to take shots at the target with the highest points being awarded the closer you get to the bulls eye!

## Clay Pigeon Shooting - £600 + V.A.T

Use real shotguns in our competition-style shooting experience.

Professional tuition from our experienced instructors allow even first time shooters to impress themselves at a new found ability. Each shooter will have a number of instructed practice shots, followed by scored-shots!

## Crossbows - £420 + V.A.T

Crossbows are a rifle-styled version of archery.

Easier to shoot accurately for beginners, but just as fun!

## Laser Clay Pigeon Shooting - £480 + V.A.T

A great introduction to shooting, where 5 people can shoot at the same time!

Real shotguns are used that fire a laser beam rather than a shot, so there is all the realism but without the hard recoil and loud noise.

Individual scores are calculated by computer and after a few practice shots you can compete to earn either an individual score or points for your team

## Paintballing - Price on Application

A great hands on approach to shooting with all team members shooting at the same time!

Shotguns are used that fire a ball of paint rather than shot, so again there is great realism.

The game simulates military combat; players on the team try to eliminate players on the opposing team by shooting capsules of paint at them.
